DANIELS SAVES GOVERNMENT $75,000

WASHINGTON - Fifth District Congressman Dan Daniel last year operated his three offices at a savings to the government in excess of $75,000.

The Congressman revealed that in 1976, he has $52,644.81 in unused staff salary funds; did not use $10,000 allotted for communications to constituents, saved $1,443.83 in equipment leasing and had excess funds in his stationery, staff travel, telephone, office rental and equipment purchase accounts.

Daniel was allotted $243,724 for staff salaries and used $191,079.19 of this. Members of the House are allowed $5,000 yearly for constituent communications (newsletters and radio reports), but Daniel paid for these from an office fund, made possible through contributions.

Members are provided operating funds from a dozen accounts and unused portions revert to the U. S. Treasury.

A Closer Look
The Appomattox County Volunteer Rescue Squad

Stop, if you will, for just a moment and think! Really Think! On how many occasions have you been on Highway 460, traveling either to or from Lynchburg, and have seen the Appomattox County Volunteer Rescue Squad either going to or coming from the hospital? Think again, how many times during the week do you hear the siren of the squad ambulance, telling you that once again someone has a chance at survival, a chance they might no have had without the able assistance of our rescue squad? There are twenty-one members and one junior member in this volunteer organization, each equally trained to render assistance, each equally dedicated.

One squad member of long standing tells of an incident that is both humorous and definitely sad because of the misconception.

Sometime during this year, the member mentioned above also with other members of the squad went on call to give their assistance to an ailing lady. The lady, most appreciative of the promptness with which the squad answered her call, really hated being such a bother. The members assured her that she was no bother. The lady went on to tell them "well, if I had to bother you, I am glad it is at night so that you can get paid time and a half." The squad members did not have the heart to tell her that they get no pay at all but do it because they sense a need and respond. They care about their fellowman.

Not only do the squad members GIVE their time, both night and day, but some of them are actually docked for time spent answering a call. No pay, you say . . . even docked, you say, and they still give? You better believe it!

Time and a half? The Appomattox County Rescue Squad members don't get it, they GIVE it! The numerous calls the squad members get is only part of their responsibility. In order that they be properly trained and ready to handle a wide variety of emergencies that they encounter, they are required to take classes. This is time consuming, but they don't mind.

The equipment necessary to the functioning of the Appomattox County Rescue Squad is expensive, very expensive. The only way they can obtain money to buy and maintain the necessary equipment is through your generous contributions. You haven't needed them, you say? Chances are you will! Will they turn you down because you have not made a contribution? Of course not - that isn't the way they think or live! Why should you turn down an opportunity to give just because you have not, as yet, needed their assistance?

The Appomattox County Volunteer Rescue Squad members are just about the finest citizens with the finest service we have. If you haven't given, won't you dig deep, and GIVE!

Aside from it's obvious value to genealogists or to contemporary citizens interested in their Botetourt origin - is the range of data the census actually gathered.
